What am I supporting? Special needs kids in Shrine hospitals in Florida. Shriners Children Hospitals provide Orthopedic and Burn Care to children regardless of the family's ability to pay for treatment. Our goal with this Toy Drive is to help make that special time of the year when we all open our hearts to the needs of others better for these children. Help these kids feel normal during the healing process. Your gift will bring smiles and laughter to little hearts touched by tragedy. Ride in costume or club colors, but please ride and remember that there are 628 kids who may have no gift during the holiday season if not for your generosity. Thank you from all of our hearts and theirs. (please note this is the first time we have needed to ask for toy's mostly this has been supplied by the toy manufactures. But do to economic conditions they have not supported us this year.) Lets make this an annual event.

For information about this ride or how to contribute more contact Jeff Goins quarryone@gmail.com

Professional Photography will be available by AXMAN
